## WHO AM I?

I am a professional Java programmer more than 10 years. I am hard-worker, enthusiastic, motivated, precise co-worker, who likes to be a part of a team. At the bigger company I like the atmosphere and easy to find the right people to learn from. At smaller company I like bigger responsibility and challenges.

## EXPERIENCE

- 2018 – 2020 **Senior Back-end developer** Code and Soda  
Developed custom java based web e-commercial software backend, create new machine learning based recommenders.  
Java-Spring / e-commerce / Machine Learning
- 2015 – 2018 **Senior Back-end developer** EU Edge  
Developed custom java based web e-commercial software backend.  
Java-JEE / e-commerce
- 2014 – 2015 **Junior Back-end developer** Atoll Technology  
Developed Java based speedcams software VEDA to store and manage driver's misdemeanor.  
Java-JEE / OracleDB
- 2009 – 2014 **Junior Back-end developer** Ericsson Hungary  
Developed java based O&M software to manage radio and core network (software, hardware, license management). Knowledge transfer to Hyderabad, India for 2 months.  
Java-JEE / Scrum

## EDUCATION

- 2006 – 2011 **Bachelor of Arts** Budapest University of Technology and Economics  
I studied at Management and Business Administration Faculty with Enterprise resource planning Speciality. The title of my Masters Thesis is ONE (SAP) introduction at Ericsson Hungary.
- 2002 – 2009 **Master's Degree** Budapest University of Technology and Economics  
I studied at Electrical Engineering and Informatics Faculty with Internet and Infocommunication appliances Speciality. The title of my Masters Thesis is Analysis of binary encoding fault-tolerant quantum network.

## LANGUAGES

**Hungarian** - native  
**English** - proficient  
**German** - rudimentary

## HOBBIES

I like to walk in the countryside with my family and friends, play soccer, tennis, skiing and cycling. If I have some spare time, I grab a book.

## NON PROFIT

I always charity to noble cases like education or environment. Besides, I help to collect waste or help out a friend with fixing an IT issue.
